

Buy a DTX CableAnalyzer and get a FREE CCTT Training

The new DTX CableAnalyzer Series from Fluke Networks is the testing platform for today - and tomorrow. This revolutionary new platform significantly reduces total time to certify by improving every aspect of the testing process.

DTX - it's all about time™.

Act quickly, because the offer only lasts until the end of September 2006.
A value of €395,-

DTX CableAnalyzer significantly reduces your total time to certify.

DTX CableAnalyzer

- Three times faster than existing testers with 9-second Cat 6 Autotest
- Exceeds spec requirements for Cat 5e/6 and Class E/D/F with superior Level IV Accuracy
- The only independently verified TIA Accuracy Level IV tester to obtain UL accuracy classification
- Advanced time-saving diagnostics pinpoints fault and suggests corrective actions
- 900 MHz future-proofs your investment for future applications such as 10 Gigabit Ethernet, Class F and CATV
- Resident fiber modules lets you switch between copper and fiber with the push of a button
- DTX significantly reduces total certification costs by as much as 33% a year
- **NEW: now also available optional Network Service Module for active network testing**

FREE CCTT

If you are buying a DTX CableAnalyzer, you will receive a voucher for a free Certified Cable Technician Training (CCTT). Fluke Networks is working together with independent consultants to deliver this training. It covers everything a technician needs to know about certification of copper and fiber cabling, standards & technology, as well as hands-on training on how to work with Fluke Networks' DTX CableAnalyzer.
