Established in 1903, **SIEMON** is an industry leader specialising in the manufacture & innovation of high quality, high-performance network cabling solutions. Headquartered in Connecticut, USA, with global offices & partners throughout the world, **SIEMON** offers the most comprehensive suite of copper (unshielded & shielded twisted-pair) & fibre cabling systems available. With over 400 active patents specific to structured cabling, **SIEMON** Labs invests heavily in R&D and development of industry standards, underlining the company's long-term commitment to its customers & the industry.

The **SIEMON** Company has been building innovative cabling solutions & remains today at the leading edge of networking technology with the first fully compliant Category 5e, 6, 7 & Fiber cabling systems much before the standards ratification. **SIEMON's** is proud to introduce its 10G 6A F/UTP system which meets or exceeds all channel requirements dictated by the pending IEEE 802.3an standard, scheduled to ratify July 2006. **SIEMON's** unsurpassed performance & quality control is designed to support today's advanced intensive bandwidth IP applications like VOIP, video conferencing, & streaming video with **SIEMON's** 10G+ip = 10G ip solutions. **SIEMON** is the smart choice for complete network cabling solutions.
